Version 2.0

This *Companion Guide* is a work in progress. Wellmark reserves the right to make changes to this *Companion Guide* at any time without notice. Changes appear in blue text and may be accompanied by a yellow note in the margin.

June 1, 2005

Introduction

The 820 Premium Payment transaction can be sent to Wellmark by any entity (individual or organization) that pays any or all of the premiums for a group health care plan. Such an entity is known as the “submitter” or “you” throughout this document.

Section 1 of this *Wellmark Companion Guide* provides an overview of the process for submitting transactions to Wellmark. It includes information on getting enrolled with our clearinghouse to send and receive transactions. See [Section 1 of this *Wellmark Companion Guide*](#) for additional information.

Section 2 of the *Wellmark Companion Guide* does not change the specifications of the *Implementation Guide* (IG); rather, it is intended to clarify the areas where the IG provides options or choices to be made. Using the *Companion Guide* alongside the *Implementation Guide* will provide all the information needed to create an 820 transaction.

HIPAA-AS may require you to send certain data to create a HIPAA-AS compliant transaction. However, Wellmark’s Real Time Membership System (RTMS) may not use or store all data contained in the 820 transaction. The information that follows identifies the unique data elements RTMS reads as applicable for Wellmark 820 transactions.

Note: Payments will not be posted until Wellmark receives the funds.

Legend for Wellmark Matrix for the 820

SHADED rows represent “segments”; **NON-SHADED** rows represent “data elements.” “Loop – specific” comments are found in the first segment of the loop.
